

Laundry

Safeguards Health & Safety

Everyday commercial laundry dosing systems fail to provide a closed secure dispensing container arrangement to safeguard against Health and Safety and operational handling.

floloc® solves this problem

Unequalled

Simple and secure the wall mounted container and dispenser arrangement eliminates the use of 10 Litre drums

floloc

Quality

Our formulation detergents ensure the highest standard in wash quality performance for the related laundry application.

Incorporating

Irremovable
Dispensing Closure

Prevents:

- Misuse
- Pilferage
- Contamination
- Waste

Reduces
Packaging
Consumption

The unique one-way valve and pre-use transportation seal safeguards chemical contents within the container, ensuring controlled use as well reducing the packaging usage associated with open bottles and containers.

Open Loop - 10L Drums

Everyday commercial laundry dosing systems fail to provide a closed secure dispensing container arrangement to safeguard against Health and Safety and operational handling.

Closing the loop
